# Checklist: Unstuck Me!
(*WOV Challenge*)

Step #1:
Understand Algorithm

- ✅ Have you described aloud how your **"Wov Challenge"** algorithm works?
- ✅ *If needed:* Have you helped yourself with visualization (using paper sticks or whatever in order to see your thinking)
- ✅ Do you have still problem to formulate your ideas? Have you tried to divide every step to the smallest part possible?

Step #2:
Create algorithm in your head or on paper

- ✅ Have you created a skeleton of your program on paper?
- ✅ *If needed:* Have you been as specific as possible?

Step #3:
Start coding into comments

- ✅ Have you written the skeleton algorithm into ABAP comments?
- ✅ Did you get stuck? If yes, have you tried ABAP help, google solution?
- ✅ If yes, have you seen Hints from Tom?
- ✅ If needed, contact Tom to help you.
